Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 48 is rejected under 35 U.S.C. 102(e) as being anticipated by Abelbeck et al.

Abelbeck et al disclose a piece of exercise equipment (fig. 1), a device adapted to communicate a unique identification signal the identification signal correlated to a particular user of the exercise equipment (col. 5, lines 1-7), an in-use sensor mounted to each piece of equipment (col. 5, lines 42-54), the in-use sensor having an output (col. 5, lines 42-54), and a controller mounted to each piece of equipment and responsive to the identification signal and the output of the in-use sensor, wherein the controller records the use of the exercise equipment associated with the user ID signal (col. 5, lines 1-7).
